Experience

Full Stack Developer (Personal Projects) – Remote | 2023 – Present

- Developed full stack web applications using React.js for frontend and Node.js/Laravel for backend.

- Designed and integrated RESTful APIs to handle data flow between client and server.

- Built responsive and user-friendly interfaces following modern UI/UX practices.

- Implemented backend features including authentication, routing, and database handling.

- Maintained clean, scalable, and well-documented code.

Projects

Portfolio Projects | github.com/zohaib298

- Built multiple full stack applications demonstrating frontend and backend integration.

- Created dynamic user interfaces using React and Tailwind CSS.

- Implemented backend logic and API services using Node.js and Laravel.

- Focused on performance optimization, responsiveness, and accessibility.

Education

FSc (ICS), Kallar Kahar Science College, Chakwal – Completed 2023
